

**NCADAC Working Groups
Consensus Decision by NCADAC May 13, 2013**

1) Working Groups pending establishment: Three Working Groups have been approved by the NCADAC, but have not yet been established. These three are Regional Capacity; Sectoral Capacity; and Decision Support, Adaptation, and Mitigation. It is proposed that establishment of these three WGs is postponed, pending further discussion after completion of the Sustained Assessment Special Report.

2) Working Groups proposed for termination: The Sustained Assessment Working Group focused on early planning for a sustained assessment process and development of the sustained assessment chapter in the 2013 NCA Draft. The next phase of analysis for the sustained assessment process has been undertaken by the Sustained Assessment Special Report author team. Therefore, it is proposed that the task of the original working group is complete.
